If you are having trouble reading this email, [read the online version](#).

I recently asked some of our customers why they choose CT International Services. Here's one of the typical responses I received:

"I know that a dedicated professional will be taking care of my needs from start to finish, helping me understand and deal with rules and regulations that are very different from the U.S."

Nancy, Hub International

Like many professionals who manage entities for multi-national companies, our customers find the support they need with CT International. CT Corporation is the only service provider with a dedicated international team, delivering knowledgeable, consultative service for your international projects.

We maintain a large proprietary database of international corporate requirements, so our expert team members can help you overcome frustrations such as:

- Interpreting local statutes and requirements
- Managing multiple sources or agencies for each jurisdiction
- Losing sleep over different time zones, local holidays and work schedules
- Working around language barriers and other communications challenges
- Calculating cost and currency exchanges on multiple invoices

Please visit the [CT International Web page](#) and learn about all the services we offer, or feel free to contact me. I will be happy to personally answer any questions you may have.

Sincerely,

Joel A. Rodriguez
