Hello Larry and Dave,

The Saudi Arabia landing permit is now confirmed under the authorization number 16SFC3966. Everything is now set for the LFPB-OERK so there is nothing further to worry on.

As for the issue with the landing permit, we are being told that this permit should have actually been done through diplomatic channels, which Universal cannot obtain. However, we were able to get a landing permit for this operation this time. From what the GACA had replied to us, what they were waiting on was "the approval from royal protocol" which they were having an issue getting as it seemed like the Royal Court and the CAA were not communicating well with each other. In the future, if there will be business with the Royal Court and/or Royal Family of Saudi Arabia, the clearance should be done through diplomatic channels.

Thank you,

David Zucca

Hello again Tango,.

Please keep Dave and myself update to landing permission for Riyadh ASAP,.

I'll also need to explain to my boss the reason we haven't obtained landing permission,, he wants to feel safe and confident about traveling to Riyadh, This landing permission delay is alarming,, I want to make sure the Crew and Mr Epstein have no surprises upon arrival into Riyadh

Thank you

Larry Visoski
