Carolina,
Please see the photos below of the new cushions from Casa Vera which are obviously wrong.

When Rich And I questioned the price difference from the first order you said that the prices increased. But it now looks like the size changed as well, which would explain the additional cost. We confirmed with you that the new ones were in fact the same size as the older ones but it does not look like you confirmed it with Casa Vera.

Artefacto needs to correct this as soon as possible. They look ridiculous like this.
Gregory

Hi Gregory,
Jeffrey is asking why the cushions on top of the outdoor coffee tables in PB are so thick?
<image1.JPG>

They are meant to look like this:
