So JE chose the second option for tires.. the Continental Extreme Contact DWS. Do you think it would be possible to drop off Grover on Friday? I could load him up with some of the things for the plane and drop him off after dropping of luggage at the plane?

Hi Sarah Sarah,,

here are my top three performance tires I favor,:starting at the top and working down,. currently you have 19" rims installed, and if I;m not mistaken Story's car had 22"rims.

There is great Tire and Rim store located next to Teterboro Airport, I need to find the name of the store,,, if you decide to go with larger rims like the ones that came with the car, we could change tires and rims at this time,,,its the best time, obviously,.

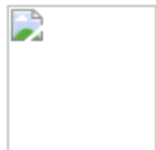

its located on Rt46 just to the east of Teterboro airport, I go by it every time I go into the city,.

what do you think? do you know of any after market Bling tire and Rim places in the city, I think the better deal would be in NJ,.

thx

Larry
