Or, I also found these more simple options combined with other options (radio, clock, bluetooth speaker):
Please advice...

Jeffrey, please see below the message from James with the link to the speakers he chose. Please let me know if ok to proceed.
Thank you!

Hi Karyna,

Thanks for this. I'm cc'ing Rich & Lesley so they can help me coordinate.

I looked at a bunch of speaker options online this morning, to see what would be easiest for guests to use. I believe this will be our best choice:

GGMM M3 Retro Wi-Fi Bluetooth Wireless Leather Speaker for Music Streaming

<https://www.amazon.com/GGMM-Bluetooth-Streaming-Featuring-Multi-Room/dp/B00WG002AW/>

It's loud enough to fill any of the apartments, large enough to not get lost and has a big friendly dial on top to switch between wifi (for streaming from iPhone or iTunes), Bluetooth or headphone jack.

Unlike Bose or Sonos, they don't need special apps on their devices or accounts to log into.

It's a bit of a hassle to join to a wifi network, but that's my problem 😊 & insures that the settings won't get tinkered with after.

And it's not horribly ugly either.

It comes in black, coffee, camel & red. I'm thinking the camel will blend nicest with the apartments' design.

Does this look good to you?

Thank you,

 James Ce, your Personal Genius,

Hi James,

Mr. Epstein would like you to please install speakers in addition to apple TVs in the apartments at 301 East 66th Street please.

He did not specify what kind. Please let me know if you need any help with that.

Thanks a lot,
Karyna
