Hi Karyna,

Thank you very much for the fun girls sushi night out and the lovely pressie. (I will always remember the RL shop we passed by and the most 'fashionable' police station in front of RL).

We hope you were able to experience the Japanese hospitality mentality and unseen effort philosophy from the sushi chef's perspective. Yoshi called me up yesterday night to tell me that he was delighted to meet person like you, he was truly touched by your warm heart and personality. That's actually what all other people - the tea master, Reito, the monk - say about you!

Like Yuko said, thank you very much for giving us Japanese an inspiration, you make us realize what we should be embracing more in our daily life.

We hope you enjoy your weekend in Tokyo! Please let us know if you need any support.

Regards,
Yuko & Romy
