Subject: MY Bday CAKE is the BEST!!!/Flowers :)

Date: Thu, 15 Oct 2015 00:53:21 +0000

Karyna...I just dove into my birthday cake like it had zero calories!! Absolutely the yummiest strawberry shortcake I've ever had! AND, its huge so will last the weekend with my family! Thank you so much for thinking about what I would love...

...and the flowers I have in a beautiful vase on my table which is the perfect arrangement for my party (one more thing checked off my 'To Do' list for the party!) Hydrangeas are actually my FAVORITE flower of all...when I was walking to the train station tonight people were telling me how pretty they were...(Louella being one of them cause I saw her walking down the street!)

Thank you for making my day special

I hope you and Jena have the best trip ever! Let me know if I can do anything when you are abroad...I'm here for you!
