Jeffrey,

See attached deficiency letter for the minor permits. We are working on them now and plan to resubmit in 7-10 days.

Good Day Mr. Woods,

It was a pleasure meeting with you this Wednesday the 23rd of August for your client's applications that you have submitted to the Department of Planning and Natural Resources, (D.P.N.R.) Coastal Zone Management Division, (CZM) for the development of parcels A-Rem and C-1-Rem on Great St. James Island. As per our discussion, due to the proposal of a new residential cottage on each parcel you must provide more information than when you were originally submitting for small accessory structures and landscape features. The deficiency letter that is attached to this e-mail for your client's application is basically an outline of what was discussed at our meeting. Please address all the items listed and call me if you have any questions.

Thank You

Paul Kalloo
