Wolfram Insider for Education

Issue 2, 2013

Get Insight into the Computational Future »

Discussing the importance of data science in the modern world and upcoming Wolfram technologies, Stephen Wolfram gave the SXSW 2013 audience a glimpse into the computational future. Watch his talk and read more about his thoughts on this topic.

Instant Apps You Can Distribute »

 [Instant Apps You Can Distribute](#)

Are you interested in creating computation-rich applications, ebooks, or interactive reports? With *Mathematica Enterprise Edition*, you can create Computable Document Format (CDF) files that respond to arbitrary user input, import and export data, and connect to databases, while maintaining complete control over how your work is distributed. Learn how.

Bringing New Ideas into Focus: Image Quality with *Mathematica* »

Thanks to *Mathematica*'s advanced programming language and computational power, Fritz Lebowsky, Senior Principal Engineer at STMicroelectronics, is seeing major advancements in his image processing development work. See how *Mathematica* is helping his latest color imaging project double its performance while reducing cost by half.

Mathematica Summer Camp 2013 »

Do you know any students who want to learn to program in *Mathematica*, work with mentors on cutting-edge projects, and interact with other students with

similar interests? This unique, two-week camp attracts incredibly talented high school students every year, and we expect nothing less this time around. Help us spread the word and ask them to join us for a fun and challenging experience.

Wolfram|Alpha-Powered Apps—Now for Android »

The Wolfram|Alpha App has been available for Android for many years, but Android users have asked us to make Wolfram|Alpha-powered apps available to them as well. We are happy to announce that the Wolfram Algebra Course Assistant and Wolfram Calculus Course Assistant for Android are now available. Find out how to get your copy. 

Learn from the Experts: Numerics Modeling in *Mathematica* »

Need high-performance numerical computing? The *Mathematica* experts have you covered. Videos from the latest *Mathematica* Experts Live virtual event focusing on *Mathematica*'s powerful numerical capabilities and the experts' notebook are now available.
