Projects We Love

It's a showcase of human imagination — and a collective portrait of humanity. You're invited to launch a new idea as part of [Projects of Earth](#), a creative initiative exploring life on Earth today. [Learn how to take part here.](#)

And now, here are four future-facing projects.

By Simon Strauss

Kiruma: It's a single sheet of paper. It's a fantasy world. Created using *kirigami*, the Japanese art of cutting and folding paper, this illuminated diorama invites you into a castle in the sky.

[View project](#)

By Lynne M. Thomas

Disabled People Destroy Science Fiction: Travel to magical worlds in this issue of *Uncanny Magazine* written and edited by disabled members of the sci-fi community.

[View project](#)

By NapkinBooks

Bitcoin on a Napkin: What the heck is bitcoin? Learn the ins and outs of the cryptocurrency with the help of this easy-to-digest illustrated guide.

[View project](#)

By Algobrix

Algobrix: A swinging pirate ship and a Lego-eating monster are just two of the many robots kids can learn to program with this educational coding game.
