Subject: midnight express price

Date: Sun, 29 Aug 2010 18:41:46 +0000

Jeffrey,

Here is the most comparable 39' Midnight currently on the market, in this area, I need to confirm what year the engines installed on your midnight, estimating they are 2006 or 07's,

I think an asking price of \$269,000.00 is a good place to start for your midnight express., do you agree?

con's against our boat, the foward cuddy cabin is unfinished with no cushions, however will make great storage for real fisherman.

the boat below, has more fishing and avionic's, plus is a quad engine set up.

thanks,

Larry
