Subject: The Fin Explorer: Wine for clients, real-time travel adjustments, and the 2018 Space Calendar

Date: Fri, 13 Apr 2018 16:20:35 +0000

The Fin Explorer

Special Invitation: Skip Fin's monthly minimum and get 60 complimentary minutes [USING THIS LINK](#).

Feature Release: In case you missed it, last week we announced [Fin For Teams](#), giving you the ability to create and manage accounts for your team, with features like activity alerts and consolidated billing for every member of your group. If your team could benefit from using Fin, you can sign up and add team members [here](#).

Our Favorite Requests of the Week

“Hey Fin! I want to send a bottle of red wine to the client I met with today. Can you find either a Cab or something Italian (nothing over \$80) and have it sent to their home? Let me know if you have any questions!”

→ Ask Fin to select and send a nice bottle of wine to your clients.

“Yo Fin, can you cancel my car service tonight and book me a hotel in Calgary instead? Maybe a Westin or a Marriott. Just make sure the booking is done before I land. Thanks!”

→ Keep Fin in the loop on your travel arrangements so Fin can make adjustments when your plans change.

“Fin, Can you send me a few good dairy free dessert recipes without chocolate? Maybe cookies or cake-like options. I'll pick my favorite so you can get me the groceries by Friday evening. Thanks!”

→ Ask Fin to send over potential recipes for your next dinner party and get the groceries to your door by the time you need them.

“Hey Fin, [REDACTED] trying to decrease the amount of time I spend on my phone during the week. I want to get a really basic flip phone. Can you send over a couple options?”

→ Ask Fin to help simplify your routines and find tools to reduce your daily distractions.

“Hi Fin, Can you find the best rated vet in the Greenpoint area of Brooklyn?”

→ Ask Fin to recommend the best grooming options in your neighborhood and read through reviews to find the best fit.

Cool Things Fin Learned About

Fin discovered this [2018 Space Calendar](#) while competing research on behalf of a user. The schedule outlines different NASA launch dates and sky events. If this is something [REDACTED] like Fin to keep track of for you, ask Fin to check the schedule each month and add the events to your calendar.

We've found that [VolunteerMatch](#) is a great resource to find organizations that need volunteers in cities all over the country. If [REDACTED] like to give it a try, tell Fin how [REDACTED] like to contribute and Fin can send over a couple options you might be interested in.
