If you would like to try and recreate the look and feel of an Apple store in home New PC [Gadgets](#) have created a new iPad 2 Display Dock which has been modelled on the ones you see in the Apple retail stores.

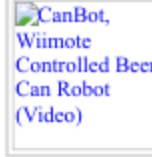

The New PC Gadgets like the Apple Stores is made from a block of clear acrylic and is at slightly more of an angle than the Apple ones to provide a more ergonomic typing angle.

The new ipad 2 display dock is also designed to be able to take your iPhone 4 and has a docking position for this as well located at the top of the slope. The new iPad 2 dock is available to purchase from the [New PC Gadgets](#) website for \$75.
