The world awaits Paul Krassner's release of The Mueller Report in a special edition of The Realist.

Yeah right. Actually I have a collection coffee-table book — “Zapped by the God of Absurdity: The Best of Paul Krassner” with an introduction by Andy Borowitz and blurb by Art Spiegelman — to be published by Fantagraphics on my 87th birthday, April 9th. I'm atheist-praying for many reviews and hoping for your ability to edit my documentary while I'm still alive. Meanwhile Nancy and I are celebrating our 31st anniversary on April Fools Day. Yippie Yy Yay and Yikes this Year.
