Subject: [REDACTED] TV and Articulating Arm

Hi George...Bob our builder will start the build out of the fireplace which will also hold the TV early next week...can you please let us know what Articulating Arm you like to use when mounting a 75" TV?

I know you said you wanted to stop by...I will be at the house for an appt at 11am on Monday...Bob will be there Monday and Tuesday if you happened to have time for a walk through.
