**PLUMBING FOR KITCHEN**

-

Hi Bob and Mike. On the original quote I gave you there is a Apron Front Sink...but my cabinetry will not support an Apron Front Sink...there fore I need to purchase a regular under mount sink...I would like to order:

Main Sink: Kohler Vault K-3821-1-NA

This sink needs a 36" minimum base cabinet width (which I believe we have) It is 33" from left to right and 22" from front to back...I want to make sure there is enough room for the faucet I want! I've been told to be careful ...the faucet I would like is the Kohler Sensate:

Main Sink Faucet: K72218CP

CAN YOU PLEASE CONFIRM WE WILL BE ABLE TO USE THE FAUCET WITH THIS SINK? I want to make sure there is enough room...I think the lever to turn on may tilt to the back wall as well as to the front.

The Island Sink, Kohler Vault:

Island Sink: K38401 SS

Faucet for the Island Sink, Moen 90 Degree:

Moen S5170 Bar/Prep Faucet

Kohler Soap Dispenser:

K-1895-C-CP

We Want a Disposal for the MAIN Kitchen sink...preferably not the kind you have to insert the plastic drain and push down on...In Texas, I had one where you just flip a switch and it goes on...is that allowed in CT?

All the faucets are to be Polished Chrome! I may have accidentally put a wrong 'finish code' on the items above? Not sure...just please make sure to order **Polished Chrome** for me!

Thanks,
