Subject: Sconces for Dining Room

Hi bob! I want to order these sconces for our dining room...but they are really tall (14w x 20.5" H) Can we move the electrical to accommodate?

I think they will look really nice with the chandelier I already have:

Also, we moved all the boxes from our DR to our LR and will just keep them there for Thanksgiving...don't worry about coming to pick stuff up! I don't care that they are in there!
