Subject: Phone number to use for me :)

Hi Rich. I came into the office today and had 4 messages from you from last week! Do me a favor and don't ever call my private line here at the office in NY. You can always reach me at the [REDACTED] number or my cell [REDACTED]. I always forward the office line to my cell so you should always be able to reach me there. But I never use the private office line, I don't give out the number and I don't check the messages. I would hate to miss something important though from you. So just get rid of my private line number and only use the office or my cell number! Thx. [REDACTED]
