Here's some instructions on getting in touch with him that he has sent back when the samples were taken. I'm assuming it's up to date. Joe is more like a consultant for our lab, then an actual lab member. Which is why I really don't have more information for him. I am sorry. We often have a delay getting in touch with him too, only because he is very busy at MGH.

My cell is [REDACTED]

. I can also be paged through the main hospital number : [REDACTED]

Hi Meghan...OK, I really appreciate your reply at least! Jeffrey keeps asking me if I have followed up...might you be able to pass along a cell number for Joe? thank you for the email addresses
:)

Hi [REDACTED]
Unfortunately, I do not know this information. Joe is a physician cross town at MGH and isn't in the lab often. I don't know what

his schedule is like. I would just give him some time to respond.
I only arrange George's schedule. I am sorry that I can not be of
help. Make sure you are emailing: Joe Thakuria
[REDACTED] or Joseph Thakuria

Subject: Jeffrey Epstein

Hello Meghan.

Jeffrey has asked me to follow up on his genome...I have emailed Joe Thakuria and cc'd
George a couple of times, but have not heard back from
either...might you be able to help? Is Joe out of town
maybe? Or might you be able to give Jeffrey an update
on where his genome stands in the process?

Any help in facilitation or response would be appreciated!

Thank you!
