Subject: tomorrow night

[REDACTED]
Let me know if you and [REDACTED] end up in town tomorrow night...I might hop in for a quick glass of wine or something as I could drop Hen with G and Ty for a quick playdate as long as they have done all of their homework and you guys are ok with it. I need to see how my day pans out tomorrow but just a thought...and, of course, if you guys have plans elsewhere or need alone time I totally understand that too!
