your sister will be ok cleaning the apartments alone....?
the box is not a priority...next week is fine to pick it up...just don't forget please

Jojo, We have a box here with 2 backup batteries and some cords that are for STC (the island)...when you have time, can you please come and pick it up and put it with the other items that need to go to the island? We also have some toner that is for one of the printers in Rich Barnett's office...

you will need the car for this...
