That would be great. Measure the entire wall and then measure the window. We will touch base when I get back.

Thanks,
Vicki

Hi Vicki...I contacted our architect and he has not drawn any elevations of the bathroom so he cannot send me anything...Is there any way I can just go over and measure the area?

Obviously, do not worry about this quote for the time being! I want you to enjoy your vacation!! don't even think about tile... (is that possible?)!...while you are away. We can circle back to this...

Hi [REDACTED]

Finally got to open the pans. There are no elevations of the masterbath in here. I am sorry. Please have them send the correct one. I will be in the office until about 6.

Thanks,
Vicki

Might you have a PDF of the elevation in the master bath of the wall with the window? I need to provide it to Vicki at stepping stones to get me a quote on the mosaic tile I want to do on the entire wall. She is hoping she can have ASAP because she leaves for vacation on Tuesday. Let me know or do I need to ask John?
