HI Scott,

I am traveling now, will land at 2pm today,, I will return to NY tomorrow at 2pm,, The Gym needs a new powerful receiver with A + B simple switch on receiver.

The goal is for JE to be able to turn on yoga speakers as needed or GYM area speakers. I have purchased a stereo Receiver / Not a home theatre receiver at Sound Advise in Palm beach that has A & B switching 600 watts,. I have not sent this unit to NY since we arrived on Chartered aircraft yesterday, I can return the receiver in Palm Bch if you can locate a good receiver in NY that will get GYM running plus a remote.

its simple install, two speakers in Yoga room, two speakers in GYM + subwoofer. needs Ipad connected for internet music source. I was planning to remove the pre-amp and amplifiers since one channel is not working,. your thoughts?

JE plans to update the TV to a 4K unit soon is my understanding, since the current TV is not HDMI

Sent from my iPad
