>> Hi,

>> So sorry bout that,,,

>> You are correct, turn power strip on, plus you have to turn on speaker bar
with remote, that should get you going, if speaker bar is not on, I don't think
the cable box will hook up to tv,,,it worked good when I was there, so I don't
think its a payment issue,,I didn't know the bedroom has cable, since there is no
box, bella, you can cancel bedroom cable if you like, its set up for dvd's only,.

>> I'll leave power strip on all the time so its not tricky to turn on, there are
no speakers in tv, so I installed a speaker bar

>> Hope this helps

>> HI Larry! Last night Ike and I stayed in your apt (11B)...is there a secret
to getting the TV to work? Ike is usually pretty good at these things...he
flipped the switch on the surge protector when the TV was on and the cable box
lit up....but on the TV it said the cable box was not authorized?

>>

>> I spoke to Bella and she says she pays for cable in your family room and
bedroom...we couldn't get the TV on in the bedroom either...it appeared you can
only watch DVD's in there??

>>

>> Let me know...it could be it was late and we were tired and Ike was looking at
things crooked ;)
