My pleasure [REDACTED]... FYI Ms. Geri Connors, who manages our Development Efforts, is across the hall from me. She asked me who the young lady was that I was touring about... she then informed me that Mr. Epstein was a significant supporter of CDM!!! All the better... please thank him for doing so... Maybe I should have created an all day tour!
Best wishes,
Dr D

I think most dental colleges will view her years in Belarus as good preparation, assuming she has the few required courses (she knows which now.) We rarely consider a candidate without a bachelors degree but her circumstances are highly unusual. As I related to her, this will be a challenge. I truly empathize with what lies ahead to accomplish this large changeover, but my sense is that she is an adult who is ready to take it on! She is a very nice person with good empathy, a critical issue in good patient care. She also met a good number of students here and some faculty. If nothing else, it gives her a good starting point for comparing dental colleges here in the US. She know she can get back in touch w any Qs, a revisit, et al..
