Subject: Second Response

Jeffrey,

I am currently in Japan 6 years after the Fukushima disaster. We've been training nurses here who use our methodologies in various ways.

Meanwhile, I am hopeful that you have decided to support us again with a donation for the work we're doing. I sent you links and an outline of our activities thus far. Most recently, we've been working with junior and elementary school kids in a program called "Random Hacks of Kindness" — these young girls are writing code and creating an app for us to use to help kids reduce trauma.

Please let me know if you plan to support our work this month as we need to gear up to expand further into more schools. We cannot meet the need and requests without additional funding.

Hope you are well, and thanks in advance.
